PREFACE

Imagine yourself holding a delightful booklet titled "**SNUMBOOK**." But this is no ordinary book; it's like a magical key that opens the door to the fascinating world of basic math from the comfort of your own home. As you flip through its pages with your parents, you'll discover an incredible number of activities just waiting for you to discover and enjoy.

This booklet has something for everyone, whether you're a young explorer taking your first steps into the world of numbers or an adult looking to reconnect with math from years ago.

This booklet is divided into the following sections:

- **TASKS.** This is the lesson application that will process the student's knowledge and skills. This will be an enrichment task to help you become more familiar with the concept and ideas.
- **ASSESSMENT.** This is a set of learning tasks used to assess students' understanding of the concepts and ideas presented in each lesson. This allows the learner to gain a deeper understanding of the subject matter.
- **REFLECTION.** This is an activity where the students will rate their understanding of the lesson and share the involvement of their parents as they completed the activities in the booklet.
- **LEARNERS PROGRESS REPORT.** This is the summary of scores obtained from the different activities. It also contains the comment of the teachers regarding the progress of the students on the topic.
- **REFERENCES.** These are of sources used in the creation of the booklet.
- **KEY ANSWER.** The set of correct answers in the various activities for the reference of the teacher.

Remember, there's no need to rush. This journey is all about steady progress and support. So, take your time, pause, and take a breather whenever you need, and approach each new challenge with a sense of determination. Math is like a puzzle, and you have all the time and support you need to piece it together at your own pace.

Whether you're just starting your mathematical journey or continuing to build on what you know, I invite you to open your heart to this booklet and embrace the knowledge that your efforts truly matter. Let's embark on this math adventure together, one step at a time.

With patience and encouragement,

Teacher Maria

HOW TO USE THIS

If you are serious about improving your mathematics skills, SNUMBOOK is a must-have! It is easily accessible whenever you need it to help you get better at arithmetic or better grasp fundamental ideas. The best part about this booklet is that it allows one to work with the guidance of parents, who may serve as reliable mentors.

To the students, the SNUMBOOK was designed for students to provide fascinating tasks that will help you enhance their core math abilities. Each booklet focuses on a different math ability. Take it one step at a time, finishing one booklet before moving on to the next. Before moving forward, it is critical to fully understand each talent. Do not be afraid to ask your parents for help as you go through these exercises.

To the teachers, these home-based enrichment activities are a valuable tool for strengthening math skills and grasping key concepts. They offer a structured approach and enable students to work with guidance from their parents. Your role is to support both students and parents in establishing a consistent schedule for completing these activities. Additionally, you should provide clear instructions to ensure students understand the expectations, review, and correct mistakes once the booklets are submitted, maintain a record of completed tasks, track students' progress, and encourage them to reflect upon their work after each set of tasks is completed.

To the parents, your involvement in these home-based enrichment activities is important for your child's success and the development of their mathematical abilities. Since these pursuits take place in the comfort of your own home, you bear the responsibility of ensuring that your child has access to a conducive learning environment, providing appropriate supervision, establishing, and sticking to a regular routine, checking in on his or her progress, and encouraging a growth mentality.

TASK 1: PUZZLE PIECE

DATE:	TIME STARTED:	TIME ENDED:	SCORE:
-------	---------------	-------------	--------

Welcome back for another numerical adventure!
Today, we're doing **addition without regrouping**. Get ready to **complete the puzzle pieces by finding the answers to the addition sentences**.
Best of luck – let's solve this puzzle together!

1. $3 + 2 =$
2. $1 + 4 =$
3. $0 + 6 =$
4. $3 + 3 =$

How's it going? Was that first task a breeze for you?
Now, get ready for round two! If you're up for it, let's jump into the next challenge. Ready? **Here we go!**

TASK 2: SAVE THE BALLOONS

DATE:	TIME STARTED:	TIME ENDED:	SCORE:

Oh no! We can't let those balloons escape to the heavens.
Time to be a balloon hero!
Help save the day by answering the addition problems inside each balloon. Keep those balloons grounded with the correct answers. Ready to be a balloon-rescuing math superhero?
Let's do this! 🎈

Great job! You're rocking it! Feeling pumped for the next challenge?

Alright, let's dive into task number three! Get ready, because here comes the next adventure.

Ready, set, go!

TASK 3: ADDITION DRILL

DATE:	TIME STARTED:	TIME ENDED:	SCORE:

Hey there!

Get ready for an exciting addition drill!

Your mission now is to **answer as many addition problems as you can in 5 minutes.**

Keep an eye on the clock, and let's test your speed and accuracy.

Good luck, and may the math skills be with you! 🕒

Hey, is the activity wearing you out a bit?

No worries! Take a breather for about **5 minutes** and recharge those batteries.

All set? Break time's over! If you're feeling refreshed and ready to roll, let's jump into the fourth task.

Ready for the next challenge? **Let's do this!**

TASK 4: MAKE MY HEART BEATS

DATE:	TIME STARTED:	TIME ENDED:	SCORE:
-------	---------------	-------------	--------

Wow, task 4 already! Let's keep that excitement going!

Get ready to **make my heart skip a beat by answering each addition problem.** Feel free to add some color to those hearts if you're feeling creative. But remember, **handle my heart with care – accuracy is key!** 💖

Now, if you're all set and raring to go, let's smoothly transition to your next task. Ready for the next adventure? Let's dive in!

TASK 6: COMPLETE ME!

DATE:	TIME STARTED:	TIME ENDED:	SCORE:
-------	---------------	-------------	--------

Hello! It's time to put those addition skills to the test.

Your task is to complete the addition sentences by filling in the missing number on the blank. Be careful, and make sure to craft those complete and correct sentences. Ready to do this challenge? Let's go!

1. 3+ _____ = 9	6. 23+ _____ = 76
2. _____ +2 = 10	7. _____ +21 = 45
3. 2 + 6 = _____	8. 32 + 64 = _____
4. _____ +7 = 7	9. _____ +142 = 273
5. 5 + _____ = _____	10. 134+ _____ = 166

Fantastic job on completing all six tasks! It's a great feeling, isn't it? Now, before you turn in your booklet to your teacher, make sure to review everything.

If you have any questions or need clarification, don't hesitate to ask.

It's important to feel confident about your work before taking the assessment. **You've got this!**

ASSESSMENT

Congratulations on completing all the tasks and
assessments.
Well done on reaching this point, and I hope you
feel a great sense of accomplishment!
Now, go to the reflection part of this journey.

TIME TO REFLECT

Great job on completing all your tasks and assessments! Now, let's take a moment for reflection.

Draw a **happy face** next to the statement that best represents your level of understanding of the lesson.

And don't forget to share a bit about your parents' involvement in completing the activity. Their support and involvement can make a big difference!

	I UNDERSTAND IT AND CAN TEACH IT TO OTHERS.		I THINK I UNDERSTAND IT, IM STILL GETTING SOME ITEMS WRONG.
	I UNDERSTAND IT.		I DON'T GET IT I NEED HELP.

1. Did your parent help you in completing your tasks?

YES

NO

2. How did your parent help you in completing your activities? Check all that applies.

- ☐ Provides me nice learning environment to do math.
- ☐ Spends time with me while I am doing my activity math at home.
- ☐ Assists me when I am confused.
- ☐ Motivates me to learn math well.
- ☐ Checks me if I am doing the math activities right.
- ☐ Talks to me about my new learnings.
